Deadline: June 25, 2021

AZ DRIVER TRAINING PROGRAM

Three Nations, in partnership with Newmont, is organizing an opportunity for Members of Brunswick House First Nation, Chapleau Ojibwe First Nation and Chapleau Cree First Nation for **AZ Driver Training** to be offered to a limited number of candidates. The training is to take place in Chapleau (*location yet to be determined*). The training is currently planned for mid-August to late September, dependent upon candidate interest.

PREREQUISITES:

- Participants must hold a valid G Drivers License
(photocopy will be required)
- Grade 11 or equivalent
- MTO Medical

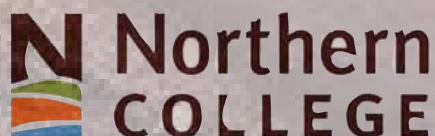

If interested, please contact your community's representative.

Brunswick House First Nation – **Renae Vanbuskirk** (renae.vanbuskirk@bhfn.ca)

Chapleau Ojibwe First Nation – **Connie Picody** (connie.picody@chapleauojibwe.ca)

Chapleau Cree First Nation – **Stephanie Scott** (education@chapleaucree.ca)

Upon successful completion of this program and provided hours have been met, students will be registered with TTSOA and will graduate from the Northern College Board Approved AZ Program.

CAREER OPPORTUNITY

Newmont is the world's leading gold company and a producer of copper, silver, zinc and lead. The Company's world-class portfolio of assets, prospects and talent is anchored in favorable mining jurisdictions in North America, South America, Australia and Africa. Newmont is the only gold producer listed in the S&P 500 Index and is widely recognized for its principled environmental, social and governance practices. The Company is an industry leader in value creation, supported by robust safety standards, superior execution and technical proficiency. Newmont was founded in 1921 and has been publicly traded since 1925.

Longhole Planner

Borden Mine – Chapleau, ON

They will be reporting to the Mine Engineering Supervisor. Accountable for all aspects of the longhole stoping planning process from the mine design through to reconciliation process.

Purpose

Provide direction and support to the operations group to help achieve and surpass the mine's safety and production targets and to add value to the operation. Ensures timely execution of sequence of mining activities for longhole stoping, provides mine plans, drilling layouts, blast letters and monitors progress to ensure monthly forecast is achieved.

Safety & Sustainability Expectations

- Become familiar and align to the Fatality Risk Management process
- Become familiar with the critical control verification process
- Be proactive with respect to safety and help design and operate a site that is the safest possible, through input and thoughts shared with others.
- Ensure regulatory and inter-company procedural compliance.
- Generate competent, workable, and safe mine plans and measure performance and effectiveness of existing designs and systems.
- Works safely, striving to achieve triple zero.

Essential Duties

Promoting Safety and Sustainability

- Promote innovation and continuous improvement in safety by reviewing existing and new technology applicable to underground drilling and blasting.
- Develop plans and designs for regulatory compliance and compliance to Company policies, procedures and standards.
- Promote and adhere to Company safety policies.

Longhole Planning

- Monitor various work places regarding drilling, loading and blasting to ensure use of best practices.

- Develop plans and designs that are safe, cost effective and provide for efficient ore extraction with available resources.
- Optimize production and minimize dilution through mine designs and mine plans.
- Participate in short term planning at the departmental level, providing input on areas to increase value and optimize use of resources.
- Ensures timely execution of sequence of mining activities for longhole stopes, longhole drilling layouts, and monitors progress to ensure monthly forecast is achieved.
- Provides loading layouts and blast letters for all longhole blasts & monitors drilling progress.
- Complete stope reconciliations to verify quality and identify opportunities for improvement.
- Regular site visits to longhole stopes to ensure progress is as per plan
- Report QAQC of plan versus actual for drilling, blasting and stope performance

The above duties and responsibilities are representative of the nature and level of work assigned and are not necessarily all-inclusive.

Training & Experience

- Engineering degree, Technician or Technologist Diploma in Mining Engineering (or equivalent)
- Competent with Deswik mine design software
- Minimum 3 years of mine operation and engineering experience.
- Leadership experience would be an asset, not requirement.
- Be technically competent and have a good understanding of U/G longhole mining.
- Have strong communication and people skills.
- Able to impact and influence in order to gain the alignment of the operations group.
- Ability to effectively establish priorities and communicate these to the operations group.

Working Conditions

- This position is located at Borden, part of Newmont's Porcupine mine site near Chapleau, ON.
- In this role, you will work a 5x2/4x3 schedule. As such, if you do not live near the site, we will require relocation.

How to Apply

Please send a copy of your resume to FNBordenGoldHR@newmont.com and include Requisition ID 14944 in the subject line. [Optional] Please identify which community you associate with. The deadline to apply is **June 28, 2021**. As an equal opportunity employer, Newmont is committed to diversity, inclusion, and accessibility. We encourage all qualified candidates to apply. Accommodations are available on request for candidates taking part in all aspects of the selection process. All properties owned by Porcupine Operations are now Tobacco-Free. This includes but is not limited to all buildings, parking lots, vehicles, the surrounding wooded area, roadways, tailings, rehabilitated sites, etc.

HEAVY EQUIPMENT MECHANIC

Job Opportunities
Chapleau, Ontario

The mechanic inspects jobs and determines nature and extent of repairs, methods, materials, tools, etc. exercises judgment in the selection of materials and tools, and in methods so the job is performed in accordance with accepted safety standards. It also ensures that downtime related to mechanical problems in the production process is minimized.

- *Ontario mining site;
- Work schedule: 7/7 on rotating day/night shifts;
- Minimum of 5 years of field mechanical experience;
- Must have a heavy-duty equipment technician licence;
- Must have a valid Ontario College of Trades membership;
- Holding a truck and coach technician license may be considered;
- Underground hard rock mining common core (770225) would be an asset;
- Willingness to learn, supporting a fleet of innovative mining technology - electric vehicles in a strong team environment.

Summer Solstice

This year National Indigenous People's Day falls upon Summer Solstice

Summer Solstice happen two times each year. Once in the Northern Hemisphere and once in the Southern Hemisphere. In the Northern Hemisphere, Summer Solstice typically takes place on June 21st. In the Southern Hemisphere, Summer Solstice usually takes place on December 21st.

Even though Summer Solstice occurs at a single moment, we make it into a full day or even a full week of celebration. We embrace the light, remembering that from this day onward daylight starts to decreases with each and everyday.

Wishing everyone a happy, healthy and safe weekend.

Introducing the **Indigenous Language Revitalization (ILR) CLASSES** *with the Moose Cree (L-Dialect) for Adults*

Moose Cree is a severely endangered dialect of Cree. It has very few fluent speakers and revitalization is the conscious effort to save the language from falling out of use for generations to come.

The weekly classes are focused on helping people build their vocabulary and conversational skills. Classes will consist of casual conversation with other learners and fluent speakers on a variety of topics.

No prior knowledge of or fluency in Cree is necessary. All levels of fluency are encouraged to join!

Easy and friendly learning groups via ZOOM.

Weekly resources: Word of the Day & infographics, virtual flashcards, lessons and worksheets.

NEW! Beginner Cree Syllabics Classes offered on Monday Evenings @ 6:00 PM

<https://westernuniversity.zoom.us/j/98525055521>

The new beginner classes will use a syllabics-only approach, meaning this is the only alphabet we will see and use in our activities. The structure will be very similar to our beginner classes along with basic pronunciation, grammar rules, and some vocabulary.

Weekly ILR Intermediate Classes offered on Wednesday Evenings @ 7:00 PM – 9:00 PM

<https://westernuniversity.zoom.us/j/98824871041>

Indigenous Language Revitalization (ILR) is an organization created to keep the Moose Cree "L-Dialect alive. The zoom classes are hosted by ILR Lead, Terrance Sutherland, a member of the Moose Cree First Nation and ILR Coordinator, Ricki Archilles, Ph.D. Candidate, University of Western Ontario both residing in Kapuskasing, ON and other co-host speakers of the L-Dialect.

If you are interested in registering for Cree Classes, please email Cheryl Dupuis at culture@chapleaucree.ca

Scheduled the week of July 12, 2021 **Deadline to register is July 7, 2021**

Sewing Machine Basics Teaching Workshop for Youth Females Ages 12-18 years old Wed., July 7, 2021 | 6:00 PM @ Health

Want to sew but don't know how?

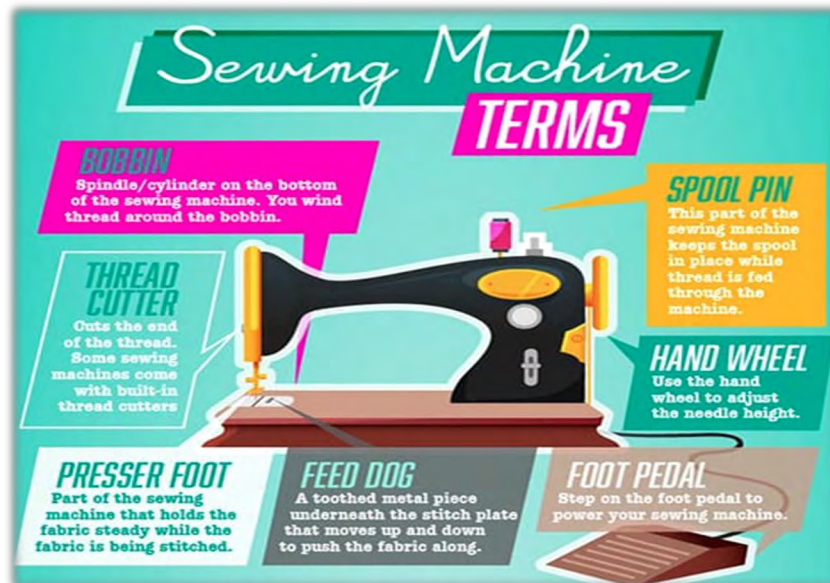

Do you plan on using CCFN Health's sewing equipment in the future?

Need a refresher on all of the basics?

Come learn about sewing machine: safety, terms, parts, functions, care, and maintenance. Choosing the correct needle and thread will go a long way in caring for the machine and reduce thread/bobbin jams.

All sewing machine models are similar in function, and every user **must** know the basics on how to use and care for it before and after each use.

All the participants attending this workshop will complete a sewing craft.

These workshops are **MANDATORY for EVERYONE** interested in using CCFN Health Centre sewing machines.

More workshops for various ages/genders will be offered in the near future.

To register, please call the Health Centre at 705-864-0200 as space is limited.
