Non Insured Health Benefits

What you need to know

About the program

The Non-Insured Health Benefits (NIHB) program provides eligible First Nations and Inuit clients with coverage for a range of health benefits that are not covered through other:

- social programs
- private insurance plans
- provincial or territorial health insurance

What the program covers

The program **may cover** some of the following if your private insurance, provincial or territorial health insurance does not:

vision care

dental care

mental health counselling

medical supplies and equipment

prescription and over-the-counter medications

traditional healers

medical transportation to access medically required health services that are not available:

- on reserve
- in the community of residence

Benefit claims

You will need to show client identification in order for providers to bill the program directly.

We encourage providers to enroll with the program in order to submit claims directly so clients avoid covering upfront costs.

Some health service providers bill the program directly through Express Scripts Canada. This website provides information on the claims administration and payment processes for providers of:

- dental
- pharmacy
- medical supplies and equipment

~~Where a client does pay, the program accepts claims using the client reimbursement process.~~

Vision care and mental health providers can contact the NIHB regional office if they need more information. Medical transportation is also managed by the regional office.

A First Nations or Inuit community, self-government, or health authority may be responsible for providing some or all NIHB benefits.

For more information, contact **Chalias Caldwell** at financialprogrammer@chapleaucreehealth.ca or **705-864-0200**
